

Course Evaluations

Evaluation for K. Hewson - 201201EDUC3604E (Evaluation of Student Learning)

F1: The objectives and goals of the course were clearly communicated. [not answered]

F2: The instructor demonstrated adequate expertise in the subject matter. [not answered]

F3: The instructor seemed to enjoy teaching and was enthusiastic about the subject matter. [not answered]

F4: The instructor communicated clearly in class. [not answered]

F5: In devising and managing activities for classes, the instructor used appropriate teaching/learning strategies and modelled quality classroom practice and procedures. [not answered]

F6: The instructor was successful in stimulating additional reading and appropriate independence and responsibility in students. [not answered]

F7: The instructor helped me to clarify my own ideas about educational practice and prepared me to become a better teacher. [not answered]

F8: The instructor was readily available for individual consultation outside of class time. [not answered]

F9: Evaluation criteria and procedures were appropriate and fair assessments of the learnings expected in this course. [not answered]

F10: Considering all facets of this instructor's teaching, I would rate it as [not answered]

FC: Please comment on any aspect of this instructor's teaching.

- 1 Kurtis never fails to amaze me. I always get so much out of his classes. For this class in particular I found all of the information he presented highly relevant and useful. With that, I felt that all of the assignments were very fair and relevant. Kurtis always does a great job in ensuring I understand the assignments and always sets me up for success. He is ALWAYS available when I have questions about anything, even things unrelated to his particular class. I think that the University should keep him forever!! I feel extremely lucky that I have had the privilege to be in Kurtis' classes. BEST PROFESSOR I HAVE HAD.
- 2 A much more enjoyable class than I expected. I learned a plethora of useful techniques and felt surprisingly engaged for a Friday morning class
- 3 Kurtis is the type of teacher I would like to be! He is so knowledgeable and enthusiastic about his subject matter. One of my favorite parts of this class was that Kurtis always used new and exciting strategies that could readily be applied in my own classroom. He ALWAYS modeled great teaching behavior and strategies. I feel like the information learned about assessment was extremely helpful and I feel much more prepared going into Practicum. Kurtis is always available to meet or through email if you have questions or concerns. It is obvious just how much he cares about his students and what he is teaching. He also made himself available for some very useful EUS sessions. He goes above and beyond what is required of him. One issue I had with this course is that 10 question multiple choice tests are worth 15% and make up 45% of our grade. The open book does help but that still causes me stress that one question is worth more than 1% of our grades. So maybe the set up of the course should be looked at. Kurtis is absolutely an asset to the Faculty of Education and I feel so lucky to have done my first year of Education this year because I was lucky enough to be taught by Kurtis. He is the type of principal I would like to teach with. Hands down, one of the best instructors I have ever had in any of my education!
- 4 Great professor! Was always available outside of class and had interesting and engaging activities.
- 5 The only complaint that I have is that this class was only once a week, and would have been extremely beneficial to be twice. Excellent teacher!
- 6
- 7 Kurtis was a very strong teacher. Easy to talk to and very effective and leading lectures and encouraging learning. A real great model for any teacher on a professional and personal level.

Comments

- 8 This was the most fun and most useful class of the semester. I personally struggled in PS I in implementing assessments and I feel like this class has helped me improve exponentially. Kurtis is an amazing teacher who genuinely cares for his students and for the subject matter. I love that on top of learning about assessment and evaluation we were able to see a multitude of teaching strategies and activities. Thank you Kurtis!!!
- 9 Best class I have has the opportunity to take in the Ed program. Taught more than content with his approach to teaching. Very helpful in and out of class. Awesome class.
- 10 This class was the most beneficial class of the semester! The only suggestion I have is having it more than one a week, as I feel there is so much to learn! Awesome teaching!!!!!!!!!! This class helped so much in all areas of my teaching and not just evaluation!!!!
- 11 The only thing I didnt like about this class was that it was only once a week. I feel that this class is such a crucial component of the journey to becoming a teacher that it should be twice a week. I felt that the assignments were relevant to what we would be doing in practicum. Kurtis provided endless amounts of support and was always willing to work with us in regards to deadlines and problems we had during the course.
- 12 Great job! The only thing that I disliked was how often you made us move around in class. Lots of students benefit from this but my learning style is very lecture, sit and listen based. I would of liked even one class where we just stayed in the groups that we started with when we sat down at the beginning of the day.
- 13 Kurtis's classes were excellent and well executed. He practiced what he taught 100% which made me take his class seriously.
- 14 I learned so much practical information in this class. I can always count on being engaged during lessons and fairly evaluated in Kurtis' class. Always an enjoyable time.
- 15 Kurtis was an exceptional teacher and mentor. He made the toughest part of my PSII feel comfortable and safe. He was passionate, warm, flexible, considerate and knowledgeable. Kurtis has given me tools from his experience, including but not limited to confidence and ease, that I can apply to my PSII and future career. It was an honour to have the opportunity to learn from him - thank you.

Comments

- 16 Kurtis is a phenomenal teacher!!! All his activities were extremely insightful, interactive, fun, and engaging. I learned a lot in this course and looked forward to class each week. He was excited to teach and knew the subject matter very well. Also, he would demonstrate new instructional/teaching strategies each class that we can use in our classroom. I would love to have this class twice a week rather than once because I felt there is still so much more to learn. Kurtis did an amazing job with the amount of time that this class allowed but another class a week would further our learning in this subject.
- 17 I got the tools that we needed to do but I did not get what happens next. What do we do with the information now that we have collected it. I thought that the test were not a fair assessment on what we know but how well we can look up the information. I appreciated the text program for reminders and that he was always willing to set you up for success.
- 18 I found that this class offered lots of strategy, but very little content. I would have enjoyed more small assignments, which could be used in our practicums.
- 19 Excellent job Kurtis. This course was informative, practical, and enjoyable. Kurtis provided excellent feedback, prompt replies to questions, and provided all the help needed to be successful.
- 20 Kurtis was a great teacher! He demonstrated not only amazing evaluation skills but also a great variety of tools to use in any classroom such as the 'table toolkit'. I found evaluation a much more effective and useful class than social context. I would have benefited more from having evaluation twice and week and social context only once.
- 21 Kurtis was awesome! I learned so much while taking his class. He demonstrated awesome teaching strategies and skills. He was personable and did so much to ensure student success (outside of class workshops, quick response to emails, etc). He was passionate about what he taught and did more than prepare me for my future assessments - he prepared me to be an overall effective teacher. I hope to be able to learn from him more in the future.

Comments

- 23 Thank you so much for teaching us. I learned an incredible amount, not just from the course content, but from your teaching demeanor and overall skills. I am a better person and student teacher for being in your class. All the best to you and I hope we can collaborate in the future!
- 24 Loved this class! Such an engaging professor and I learned so much about this topic and other things. Thanks!!
- 25 I have enjoyed every class I have had with Kurtis. His enthusiasm and his seemingly sincere desire to want the best for every single one of us is amazing! I think this class is extremely useful and beneficial to our future careers and feel prepared to head out into my practicum
- 26 This class was very useful and the instructor demonstrated very useful teaching strategies and use of technology that I would use in my own classroom. I feel that this class should have been six hours a week instead of three hours as it was very beneficial. The assessment was fair and relevant to what we will be doing in practicum. Kurtis was very flexible and supportive in our learning and communicated with us on a weekly basis. The instructor was always available and this was greatly appreciated.
- 27 I think that since PSII is really focused on evaluation and assessment, I think that this course should have been offered more than once a week. I think that I would have benefited much more having this class twice a week and Ed Psych or Social Context once a week. Kurtis is extremely helpful and passionate about his work and I thought he was an amazing teacher and feel very lucky to have been able to learn from him.
- 28 The only problem I had with this class is that it was only once a week. I feel that we needed way more exposure to evaluation, I feel that we should have had eval 2 times a week instead of Social context! Kurtis was amazing, he not only taught us ample about eval but he did in a way that exposed us to many useful teaching strategies. I wish that I had more time in this class.

Comments

- 30 One of the most amazing professors I have had in my undergraduate degree. He is very flexible and open to suggestions. He is very clear on assignments and willing to help whenever and where ever necessary. He is quick to respond to emails which is an amazing teaching quality. I really enjoyed having him as my professor. I have learned many teaching strategies from his lessons and I hope to apply them to my own classroom. I thought it was a great addition to the lesson when the speaker held a session on creating multiple choice questions.
- 31 This was a great course. I think if all sections were like this one, this course should have received higher precedence than social context.
- 32
- 33 It was refreshing having someone teach us who had very recently been out in public schools. Felt like we were learning something concrete which was nice after so much theory in all of the other classes. Why was this course only once a week? It seemed like there was so much that Hewson wanted to get done and so little time to do it in.
